

## The Quarterly Publication of the Godzwa Family, Missionaries to the Yucatan

### Collaborating for Impact

Each year we join with teams from the US to collaborate on projects here in Mexico that would be difficult to complete without outside help. This past week, we received a 6 member team from Richmond Chi Alpha (RVXA) to raise a roof for Bethel Assembly (above).

This church, in the economically depressed area of Kopte, is still recovering from the devastation of Hurricane Isidore, whose high winds and floods wiped out all but a portion of the rear wall. RVXA was able to provide funds to purchase the

galvanized metal roofing needed to complete the work and join with church members to put those materials in place. The funds they invested, their time and physical labor, as well as their ministry among the children of the village served as an infusion of hope for the needy church, which promised to continue where the team had left off.

Later this month, we will join with missionary Nicky Rider to receive a team from Rolla First

Assembly, which will work in Tekax to advance the construction of a church and training center for the predominantly Maya population of the region. Please pray for the continued impact of these groups!

### Relate

We're so proud of Rebekah engaging in ministry and activity on campus while keeping up her academic life, making the Dean's List! Joseph has his ACT test coming up in June to prepare for his senior year and future college plans. Jonathan is gearing up for a class trip to L.A. in May!

### Get Involved

We're beginning to schedule for our 2019-2020 itineration period, starting in August of 2019. To schedule us, follow the link: <http://bit.ly/TbmLBB> or scan the code.

### "This Program is a Move of God..."

We had the chance this month to sit down and speak with regional presbyter, Abel Can, to gain his perspective as a leader on the *Red de Multiplicación* (RdM) church planting program. He was impressed with the emphasis that RdM places on the

formation of the worker and the evangelism and discipleship of the community and stated, "This program is a move of God for our state to enable the church to fulfill its purpose both in the district and to the ends of the earth." Pray for us and our

church planters as we enter our third month of this program now underway state-wide!
