

## The Quarterly Publication of the Godzwa Family, Missionaries to the Yucatan

**"...Let the poor and needy praise your name." Psalm 74:21**

While our vision is to see the Yucatan full of churches, when a medical brigade was formed to bring hope to those still suffering from the major September earthquake in Oaxaca, Kelly felt a pull to participate. She joined Mexican doctors, nurses, and other AG missionary families to bring medicine, counsel, and art therapy to the hurting as they joined with local churches who provided an area to minister and a hot meal to each needy person.

About 3 months have passed since the major earthquake, and families are

just now starting to heal. The piles of rubble lining the streets, the dust from those piles causing many respiratory issues, and the continuous aftershocks are just a few examples of the difficulties these poor families face in rebuilding their lives. Please

pray with us for complete restoration!

It was beautiful, however, to see our Yucateco friends working with us and their fellow Mexicans, like Isidra (pictured above), as the body of Christ to share God's love in practical ways.

### Relate

Since September, Skype calls, like the one below, have been our only opportunities to get together as a family. Starting December 10th, however, Rebekah will be back with us to celebrate Christmas in the Yucatan!

### Get Involved

Help us realize our vision through a year-end tax deductible gift! Scan the QR code or hit the link to set up a one

time or recurring donation:

**"...A light will shine." Isaiah 9:2**

Reading the accounts of Jesus' birth, the speed at which the news spread is striking. Like light, it refused to be contained and it provoked a reaction. As we continue with our efforts to see the Yucatan full of churches, we long for the pervasive quality of the light

of Christ to be felt. Since September, we've held five church planting events. It is our desire that the more than 70 individuals registered to start new works during those events would be but the beginning trickle of the flood that will pour forth from the four walls of the church to

proclaim the message of God with us, and that society again would be moved. Read more at: <http://bit.ly/2jrQ2bf>
